SUMMARY

Motivated undergraduate student with strong knowledge of Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), and Web Development. Skilled in building responsive web applications using HTML, CSS, JavaScript, and React.js, with experience in real-time applications using WebSockets and collaborative development using Git and GitHub.

TECHNICAL SKILLS

C++, Java, Python, SQL, HTML, CSS, JavaScript, React.js, MongoDB, Git, GitHub, Web Development, Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP).

EDUCATION

2023 – Present Undergraduate at VIT Bhopal University	(CGPA: 9.13/10)
2022 – Class 12th CBSE Board	(86%)
2021 – Class 10th CBSE Board	(96%)

PROJECTS

SudokuVerse

[GitHub](#)

- Developing **SudokuVerse**, a responsive Sudoku gaming web application supporting 4x4, 9x9, and 16x16 boards with difficulty levels ranging from Beginner to Extreme.
- Implemented core gameplay mechanics including pencil mode (notes), undo/redo, eraser, hint system, real-time validation, cell highlighting, and mistake tracking with a 3-strike game-over logic.
- Built a timer-based scoring system with difficulty-wise scoring, time bonuses, and penalties for hints and mistakes to enhance user engagement.
- Integrated multiple UI themes (Classic, Neon, Minimal, Night, and Colorblind mode) using Zustand state management and localStorage persistence, along with sound effects and background music toggle controls.

ZeroTrace

[GitHub](#)

- Developing **ZeroTrace**, an AI-powered plagiarism detection platform supporting PDF and DOCX uploads with semantic similarity analysis beyond traditional keyword matching.
- Implementing NLP-based plagiarism detection to identify paraphrased and restructured content, providing accurate similarity scores and source identification.
- Building a responsive frontend using React and Tailwind CSS, featuring file upload, real-time scan progress, interactive similarity heatmaps, and automated PDF/HTML report generation.
- Designing a robust backend with Node.js, Express, and MongoDB to store user reports, scan history, and document fingerprints for faster rechecking and improved scalability.

WORK EXPERIENCE

Frontend Web Development Intern at COD TECH IT SOLUTIONS

Jan 2025 – Apr 2025

- Developed a Quiz Web Application using JavaScript with dynamic question loading, scoring logic, and interactive UI components.

- Built a Real-Time Chat Application using WebSockets and React.js/Vue.js, supporting real-time messaging and message history.
- Designed a Personal Portfolio Website using HTML and CSS with responsive navigation and optimized layout.
- Created a Front-End UI for an E-Learning Platform with course listings, progress tracking, and embedded video learning modules.

EXTRA-CURRICULAR ACTIVITIES

- Contributed to the team victory in ADVITYA '25 Inter-College Cricket Tournament, strengthening teamwork, discipline, and strategic decision-making.
- Played a key role in securing the Runner-up position in the Aarambh '25 Inter-College Football Tournament, improving coordination, communication, and leadership skills.

CERTIFICATES

- NPTEL Certification: Introduction to Machine Learning (Regression, Classification, and Supervised Learning)
- NPTEL Certification: Marketing Analytics (Data-Driven Decision Making, Customer Segmentation, and Market Basket Analysis)
- The Bits and Bytes of Computer Networking (Google): TCP/IP, DNS, HTTP/HTTPS, and Network Troubleshooting
